# WIN MORE MOTHER'S DAY Business

Sixty-two percent of florists who participated in the Society of American Florists' post-Mother's Day 2019 survey reported an increase in sales last year. The number one factor identified as contributing to growth? Higher price points on products which FTD helped support with our \$70+ average order values in 2019. How can you generate more orders for your shop? We've listed some of our favorite strategies below.

### **SOCIAL MEDIA**

Update social media regularly in order to keep your customers engaged and keep your shop topof-mind. Include your social media account information prominently on your statements, marketing materials, emails and on website.

### STORE SIGNAGE

Banners, posters, street signage or even a simple sidewalk sign can help increase foot traffic.

### **ONLINE ADS**

Online advertising is a great complement to other advertising mediums. The Internet's vast reach allows you to connect with a large number of consumers.

### **EMAIL PROMOS**

Email campaigns are simple to create and can easily be tracked. Make sure to ask every customer who places an order for their email address.

### **PRINT ADS**

Print advertising tends to target a specific audience, which means your ad is more likely to reach those interested in your shop.

### **DIRECT MAIL**

Direct mail pieces have a longer shelf life than other mediums. With the U.S. Post Office's Every Door Direct Mail program, you can choose who receives your mailings based on their demographics.

### **KNOW YOUR CUSTOMERS**

According to the 2016 Generations of Flowers Study, nearly three-quarters of consumers have a high appreciation of flowers.

65% of consumers feel special when receiving flowers as a gift.

**64%** believe fragrance is important when purchasing flowers.

70% believe the sight and smell of flowers can improve mood.

60% feel flowers have a special meaning unlike any other gift.

### PURCHASING PREFERENCES BY GENERATION

**GEN Y** (ages 22-39)

Most likely to buy on impulse.

**GEN X** (ages 40-51)

Most likely to purchase their flowers from a florist. **BABY BOOMERS** (ages 52-70)

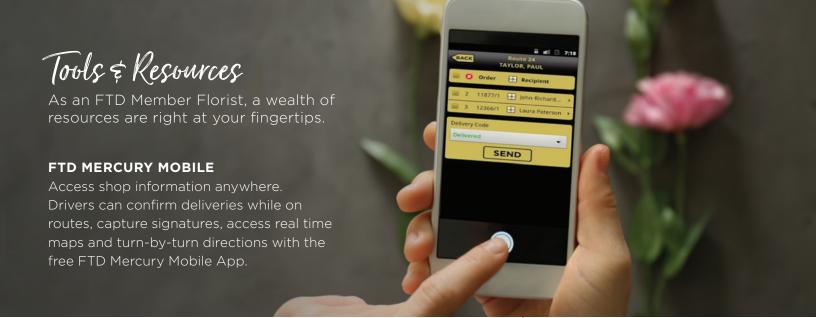

Appreciates flowers more than the other age groups.

### DOS AND DON'TS FOR SOCIAL MEDIA

- Use content-driven posts to gain followers and potential customers.
- Engage your audience with posts that encourage discussion.
- Focus on sharing your brand story across all social channels.
- Plan your posts with a social media calendar.

- · Don't just ask to "like" or "follow" your page, give them a reason (sneak peeks, giveaways, etc.).
- Don't post photos without a caption.
- Don't post personal information.
- · Don't share irrelevant content.

### **EMAIL** MARKETING TIPS

Use a professional email marketing service, such as FTD Email Marketing, to save time and drive traffic to your site.

Include past online purchases in email marketing campaigns.

Use space in your email wisely, like the "From" and "Subject Line". Make the "From" line your store name or one that is identifiable.

Entice users to open your emails by previewing the content inside.

Make sure 80% of your emails are customer-focused and 20% are promotional-focused.

Send shorter emails more frequently (about once a week).

Email marketing is a very effective way to directly impact your bottom line and grow your business. It is essential to boost business around Mother's Day, along with sending emails year-round.

With more than 91% of consumers checking email at least once a day, there is simply no competition to email.\* Plus, it is an extremely cost effective way to market your business.

### **GENERAL QUALITY TIPS**

Planning and prepping is crucial to a successful Mother's Day. Increase productivity and customer satisfaction levels for every day operations with these tips:

### **PURCHASE SMART**

When possible, purchase your flowers in the correct stem lengths to maximize profit margins.

### **ORDER EARLY**

Order product to match the timing of your production schedule and the proper stem counts to match your recipes.

### **KEEP HYDRATED**

Keep flowers properly hydrated (including floral preservatives) to create a better customer experience and provide for the proper fullness in each design.

### **CARE AND HANDLING**

To prevent ethylene buildup, remove any dead or dying petals and leaves, and do not submerge foliage below the water line.

### **SOAK FLORAL FOAM**

Properly soak your floral foam. When soaking your foam, you should gently place it in a large enough water reservoir to allow room for the foam to fill with water at its own pace. The foam should never be forced underwater. This will cause air pockets to become trapped in the foam.

#### 6 **SCALE FOR SUCCESS**

Keep scale and dimensions in mind when building each design. This is key to your customers' perception and satisfaction.

### **USE RIBBON CAREFULLY**

Ribbon should only be used when called for in the recipe and only in the manner in which it is described.

#### **PACKAGING**

Determine packaging per item prior to holiday to ensure safe delivery.

### **CHECK WATER**

Check water daily on all of your premade arrangements prior to delivery.

### **DESIGN ONE BY ONE**

When a SKU is offered in Standard, Deluxe and Premium sizes, concentrate on one recipe at a time to help ensure proper stem counts in each design.

Bouquet-specific design tips for each projected best seller can be found on the Product Recipe Catalog on www.FTDi.com/Quality.
