# How We Ship.

## Our Simple System.

### Our Flat-Rate By Zone System Makes It Easy

Teters Floral Products has taken the guess work out of shipping costs with our freight rate by zone system.

Use the map at right to find your shipment zone. Then, locate your order amount and freight rate percentage on the grid to calculate your freight cost.

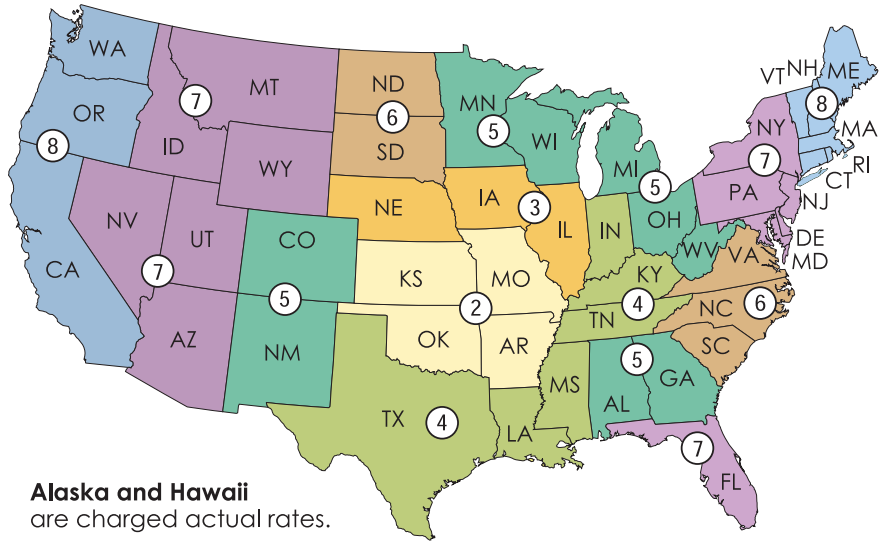

It's that easy!

Teters Floral Products also honors the same flat-rate on all backorders. If a customer requests to receive a backorder below \$150, normal freight rates will apply to shipping this backorder.

All merchandise is FOB from Louisville, MS 39339.

### International Orders:

International orders must be paid by credit card or wire transfer in US currency prior to shipping. International orders will be shipped at actual rates.

Alaska and Hawaii are charged actual rates.

We love Canadians!  
Ask about our Canada freight program.

order amount x percentage = freight cost
